MEDITATION ON A MUSICAL THEME w/ DJ Poseur

Friday nights at six in the morning

91.5FM WOBC (6-8AM Saturday)

Saturday sunrises may be better than you think. (But this is not very likely)

There will at some point be something everyone ought to hear on this show. President Dye & I guarantee it!

...A PLANET WHERE APES EVOLVED FROM MEN?

A place where an unarmed Charlton Heston can live peacefully among the apes? A radio show where electronica is treated not as a devolved, soulless fad, but as musical evolution itself?! Can it be so?

In Fall 2002, YES it can! Join DJ Poseur, Friday Nights from 11-1 for Meditation on a Musical Theme, in observance of Loop Year (not to occur again until 2112), to feature a techno retrospective spanning galaxies that could well be our own.

It's a madhouse... a maaaaadhoouuuuuuuuse!

In 3 years of WOBC broadcast, DJ Poseur has learned one very important lesson...

AMISH RAP SUCKS!

Above: Promotional photo for Mortecai's Marauders, whose single, "We Got Hoes, and We Use Them to Turn the Soil," peaked at #257 on the Pennsylvania Pop charts.

In light of this startling, new revelation, previous playlists for Meditation on a Musical Theme have been scrapped in favor of hip, blistering techno--at least for now. Embrace technology. Join an wiser, less agriculture-based DJ Poseur this fall on WOBC. 11pm-1am Fridays

Hey You, CD-**Burning Hot** WOBC DJ'S:

Since you're doing so much for us by burning cd's for the music library, we want you to

Save those supple wrists of yours!

Don't kill yourself (and our eyes) with your hideous, handwritten scrawl--take advantage of our AMAZING TECHNOLOGY! Use the iMac and the internet to make legible, potentially stunning liner notes!

HERE'S HOW:

1. Find (command-f) the Pagemaker template file called "CD Liner" and open it (a copy will automatically be opened).
2. Go online and find the album you burned (I recommend www.half.com, 'cause they don't bother making audio links of the track names). Highlight and copy the tracklisting, then paste it into the Pagemaker file.
3. Arrange the artist name, album title, and tracklisting in an aesthetically-pleasing manner. Add some flair if you one of them kinda folk.
4. Print it, cut it out, pop it into the cd case. Wham, Bam, you da wo/man!

Deformed Gecko Man sez:

If the file is missing or nonfunctional, contact Julian.lee@oberlin.edu for a brand spankin' new one.
